

Description of Esther's Crown

Esther's Crown is a presentation from memory of the entire book of Esther. The video was made at a retirement home in Wisconsin Rapids in July of 2009 before a group of elderly people, after which they memorized a list of 20 items.

It is a wonderful resource for use in a Bible Study or even a church service. When the Dvd loads you can choose a chapter, or listen to the whole 40-minute presentation.
