

Introduction

You know how socks have a tendency to disappear in the laundry and you just can't find them anywhere? I think I know what happens to them. This delightful little Tall Tale story will give you a little insight on that.

It is a remarkably cute little story written by a thirteen-year-old girl. In editing and publishing it, a few minor changes were made. But basically this is the words and shows the personality of thirteen-year-old Deanna M. Callahan.

I know you will enjoy reading this story as much as I enjoyed publishing it for her. Keep an eye out for more children's books by Deanna M. Callahan. Not only children but adults too, will enjoy her stories.
